

New England Rare Coin Galleries
Catalog
Volume 3

Welcome To Our Third Catalog.

It gives me great pleasure to be able to offer you such a superb selection of choice United States coinage in this, our third illustrated catalog. The offerings are highlighted by many great rarities, including the famous 1885 Trade Dollar. New England Rare Coin Galleries growth since Volume Two has seen the addition of Mr. Thomas Noe, Mr. James Selfridge, and Mr. Jack Praeger to our highly respected numismatic staff. Our sales have been constantly increasing due to our business ethics, knowledge, integrity, and a superb selection of numismatic material. We take pride in ourselves for all of these factors which have contributed to our phenomenal growth.

I trust you will find the following pages to be very informative and to contain a varied selection of coins. Should you be searching for an inexpensive item, a Christmas or Chanukah gift, or a tremendous rarity, I'm sure we have something to offer to you.

Due to the present market conditions, I strongly suggest an immediate telephone call to reserve any items of interest to you and recommend you order as early as possible and include alternate choices whenever possible.

I wish to extend my sincere appreciation for your continued patronage and wish you the happiest of holiday seasons and a prosperous 1975.

Best regards,

Choice U.S. Coins from New England's Largest & Most Active Rare Coin Dealership!

Our Policy

QUALITY AND VALUE:

Here at New England Rare Coin Galleries, the emphasis is always on quality since we believe that quality more than pays for itself in the long run. We grade our coins as accurately and conservatively as possible and quite often, our AU coins will be equivalent to, or better than, coins offered as BU or even Choice BU by some other sellers. We don't believe in pushing grades or ignoring defects. All coins are described as fully as possible with scratches, weak strikes, nicks, or signs of cleaning mentioned.

That is why our prices may seem higher at times. However, the fact that America's leading dealers, collectors and investors continue to buy from N.E.R.C.G. (and at an ever increasing rate) should convince you that we do, indeed, offer the best possible value per dollar spent.

EXPERTISE:

Our staff includes some of the finest and most knowledgeable numismatists in America. Authenticity is guaranteed, and members of our staff are often called upon by museums, government agencies and other coin dealers for advice in authentication.

Furthermore, we are in constant touch with the coin market. Members of our staff attend virtually every major coin show and many major auctions. We are members of the F.A.C.T.S. teletype circuit, and have extensive direct contact with virtually all aspects of the rare coin market. We understand coin values and we understand the coin market. This allows us to offer our investment clients meaningful advice as to which coins we feel will prove to be the best possible investment. This advice is based on rarity, current demand vs. anticipated future demand, past performance, and several other aspects of market trends.

With our help, our customers have made tremendous profits in rare coins. In fact, the gains made by our investment customers have outpaced the coin market in general.

PROFESSIONAL INTEGRITY:

At New England Rare Coin Galleries, we pride ourselves on our high standards of ethics, believing that by offering fair, consistent value, properly graded coins, sound unbiased advice, and (of course) authentic, accurately attributed and described coins, we are not only serving our customers, but ourselves as well.

We could advertise most of our Choice AU coins as BU and sell them at higher prices and we could just as easily tout the investment potential of a coin which we do not really feel is a good value. However, since we are looking for long-term, repeat business, not one-time sales, we choose the more difficult route of offering correctly graded coins and expressing our true opinions to our clients. This policy has produced tremendous dividends for our clients and ourselves.

SERVICE:

We are here to meet your numismatic needs, whatever they may be and are always in a position to obtain the items you need for your collection or portfolio. As N.E.R.C.G., want lists are serviced, not ignored. We can offer advice on virtually every aspect of numismatics and the rare coin market.

Nearly all orders go out the same day they are received. All coins are shipped fully insured or registered, and all non-local orders are sent via AIR MAIL. We know you don't like to wait any longer than necessary to receive your coins and that is why filling your orders quickly and efficiently is so important to us. Try our service. You will be amazed!

SELECTION:

In this type of market, our primary concern is not selling coins as much as it is with buying them. Our sources, in this regard, are nearly unsurpassable. Many of America's leading dealers and collectors regularly call us with rare and desirable properties. Our high-volume, low-margin of profit business allows us to pay very competitive (often record breaking) prices for rare coins.

Members of our staff attending leading coin conventions examine several million dollars worth of coins a week to bring our customers the very best values from other dealers' inventories.

As a point of interest, we do not hold back portions of our inventory as many dealers do. All of our new purchases are available for sale as soon as we can catalog and price them. We don't keep the best investments for ourselves since we feel that our customers deserve to profit from this market.

Our own million dollar inventory of rare coins is now one of the largest and most comprehensive in the nation. Our business is to meet our clients' needs, and we think we do an excellent job of it!

We have priced and graded all coins to be top values, and choice, desirable coins that are priced to sell (and most of

the coins we offer for sale fit into that category) cannot be expected to last long.

Invariably, when we publish our ads and price lists, we get multiple orders, often as many as 10 or 15 orders for the same item! Nearly all items are one or two of a kind and thus we must often disappoint our customers with "sold out" letters and refund checks. This is regrettable, but the alternative of pricing our coins so that they are not as good values to avoid multiple orders for the same item does not appeal to us, nor would we expect it to appeal to our valued customers.

Therefore, all we can say is please order as soon as possible and list second choices if possible. We will not use your second choice listings unless we are sold out of your first choice.

WANT LISTS:

If you are looking for a particular coin or several coins in a particular grade, send us a list of these. We will do our best to locate them for you. There is never any obligation on your part!

INVESTMENT COUNSELLING:

Our expert staff of numismatics will be happy to advise you as to the coins which we feel will offer you the best possible return per dollar invested. We are in constant touch with the coin market and are in a better position than most to recognize truly scarce and underpriced numismatic items. Investment packages can be tailor-made to your individual needs. If you would like to discuss this service, call us and ask for James Selfridge.

PRIVATE TREATY SALES:

We have built one of the largest rare coin dealerships in the U.S. Our clientele includes many of America's leading collectors and investors. Our problem is not selling coins — it is buying them! If you have a rare coin or a group of coins you would like to sell (and realize the best possible price for it!) send us a description of the coin(s) you have for sale. If we have a client needing the particular coin or group of coins, we can arrange to sell them through private treaty. (We are also anxious to buy coins outright!)

SATISFACTION GUARANTEED:

To sum it up — we are not happy until you are! All coins are sold with a ten (10) day return privilege. (Coins may be returned for any reason or no reason at all.) All coins carry a life-time guarantee of authenticity. When you order coins from N.E.R.C.G., we guarantee that you will receive an authentic specimen of the issue you order — a point not to be taken lightly when you consider the number of counterfeit and altered examples of many issues that are currently on the market.

Since my employment at New England Rare Coin Galleries, I have been attending a number of numismatic conventions across the United States. This enables me to meet many of you personally and to discuss your numismatic needs, whether you are buying, selling, or simply studying the science of numismatics.

I feel that attending conventions is an absolute necessity. We can surmise the market conditions through dealer and collector preference and spending power as well as gaining the opportunity to view millions of dollars worth of choice U.S. coins for possible purchase for our clients.

The convention which stands out the most in my mind is the A.N.A. Convention in Miami, Florida, last August. I arrived in Miami late Sunday evening in eager anticipation of a great convention. It was all of that and much more. From the moment the doors opened Monday morning, thousands upon thousands of dealers, collectors and lookers packed their way into the Americana Hotel Ballroom to contribute their share to the success of the greatest A.N.A. Convention ever.

In the six days we attended the convention we had generated nearly a half million dollars in business, almost a 500% increase over the 1973 A.N.A. Convention held in Boston, Massachusetts. Surely, the highlight of the show was our purchasing the magnificent 1884 and 1885 Trade Dollars. It was, without a doubt, the greatest event I've been a part of in twelve years of numismatics.

I will be attending many conventions in the next few months and would like to meet as many of you as possible. We will have a superb selection of U.S. coins on display as well as an eager desire to purchase any numismatic properties.

The following is a list of upcoming conventions, so if you are in the area, please stop by our table and say hello. I am looking forward to meeting you.

Best regards,

Tom Noe

Investment Insights

As we approach the long-awaited date of legalization of gold bullion, we see the desperate last-minute maneuvering of investors and dealers alike. Many of the "bullion coin" dealers are making preparations for the sale of gold bars while they try to take advantage of the final days of bullion coin speculation.

Exactly what the remainder of the year holds for this market is a mystery. The recent bankruptcy of one of the country's largest bullion coin dealers indicates the speculative nature of such an investment. If "experts" such as that firm are unable to read the market with any degree of certainty, what makes a potential investor think he can make a "killing" with his limited knowledge? Unfortunately, there are far more casualties on the side of the investors in the "get rich quick" investments.

The recent instability of the stock market seems to have only slightly deterred the "die-hard market investors". This breed of investor must certainly be recognized for his determination and undying faith in "hunches". The rather high incidence of failure of his investments seems to merely spur him on to further speculative ventures. This is not to say money has not been made in the market in the last few years, however, most market investors will find that the subtraction of their losses from their gains leaves much to be desired. The wisdom of these investors must certainly be questioned when they rejoice over finally reaching the "break-even" point. A businessman obviously could not stay in business for very long if he was only "breaking even".

Seemingly overlooked by many investors, the rare coin market trudges along at its nothing-less-than-spectacular pace. The rare coin market has long been considered as strictly the realm of collectors. It has only been in recent years that anyone took the time to calculate the growth of rare coins and examine its track record. Figures derived from the current issue of "A Guide Book of United States Coins" by R. S. Yeoman (the "Redbook") have revealed some very startling facts. An investment of \$800 in 1947 in a high grade (generally Brilliant Uncirculated) "type set"* would currently bring approximately \$38,000., an increase of 4750% or nearly 170% per year! These figures do not include gold coinage, which would have required an additional investment of \$2100 to yield a total value of the type set of over \$93,000! These sta-

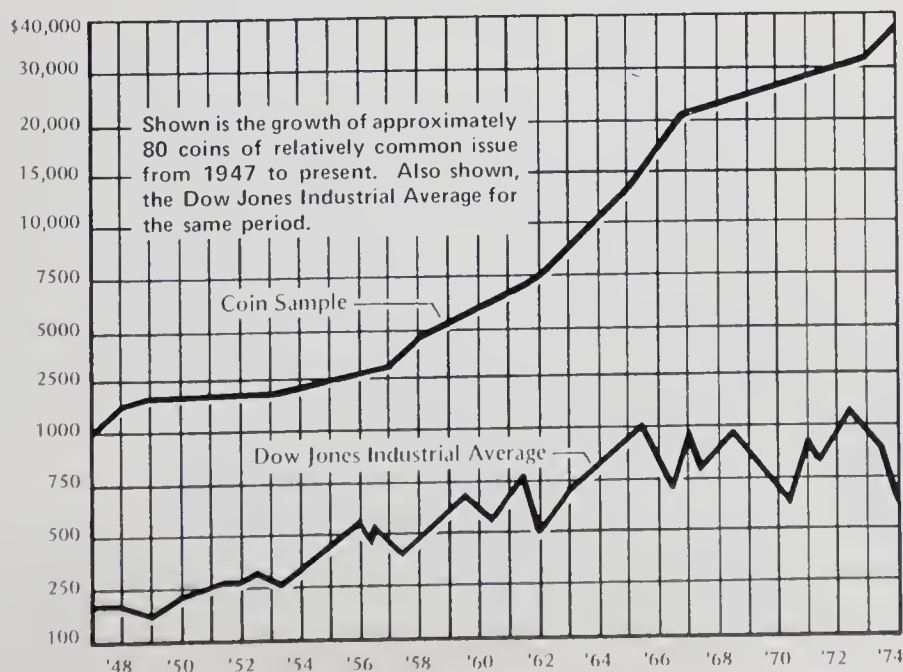

tistics are truly incredible considering the fact that these prices are based on the values of the *least expensive* coin in each series. There have been some very exceptional increases in this period (1947 — present) such as the 1853 Arrows and Rays Half Dollar in BU, which was listed at \$6.50 in 1947 and today lists for \$1,500.00! The 1796 quarter in BU listed for \$100 in 1947 while today's catalog price of \$10,000. is ridiculously low. Granted, not every coin has performed in such spectacular fashion, however the rather common 1865 three-cent nickel listed in BU at \$1.35 in 1947 and today catalogs for a very conservative \$52.50. Increases such as this are not at all unusual.

In view of the indisputable track record of rare U.S. coins, we cannot help but wonder at the reluctance of investors to seriously include them in their overall investment picture. The traditional avenue of investment for the potential investor has been the stock market. The investor places his confidence in his broker's knowledge of the market — many thousands of dollars are invested strictly on the basis of the broker's credibility. New England Rare Coin Galleries offers the potential investor the benefit of our expertise in a field which features a product of limited supply and ever-increasing demand. The supply of rare coins certainly will never increase while the demand is accentuated by the fact that interest in numismatics is at an all-time high. We feel the future will bring more of the steady growth which the numismatic field has shown over the last quarter century. N.E.R.C.G. welcomes the opportunity to prove the relative worth of rare coins as an investment. The best way to overcome the skepticism of the investor is to make money for him — and this is our goal.

* A type set consists of one specimen of each design from all denominations of U.S. coinage.

Sincerely,

Jim Selfridge

"Thank you for your good selection for investment. I believe they are graded fairly."

R.L., FLORIDA

We recognize the fact that the vast and complex field of numismatics leaves many people bewildered. Basically two types of people read our catalog — the collectors (or "hole-fillers") who have a specific goal in mind, and the beginners/investors. Often the beginners/investors are hesitant to purchase a coin due to their lack of confidence in their ability to choose the right coin. It was for this reason that NEW ENGLAND RARE COIN GALLERIES established its investment program.

AS AN INVESTOR:

The coins you should hold depend on quite a few factors. The most important is the amount of time you can hold your investment. For example, many coins which offer excellent long-term (say 10-12 years) potential, offer no real possibilities at all to those wishing to keep their investment for only 3 or 4 years. In many cases, an investor is willing to sacrifice some of his probable percentage gain for a greater liquidity. (Especially if he is not sure WHEN he will wish to dispose of his investments.) Some investors are interested in highly speculative items (such as bullion gold, BU rolls, etc.) that offer quick profits (or quick losses) and put them completely at the mercy of various uncontrollable market factors. Others prefer investing (usually over a long period of time) in rarer items such as choice colonials, rare gold, choice type material, and rare date silver and copper coins.

THE COIN MARKET IN GENERAL:

Prospects for the future of the rare coin market in general look excellent. As we have stated previously, there has never been as great an interest in coins as there is today. Many dramatic events over the past few years have attracted interest in coins. The issuance of the Kennedy half dollar, the disappearance of silver coinage, the Eisenhower dollars and the current "gold rush" must all be given credit for the spectacular gains achieved in the numismatic field.

WHAT YOU CAN DO:

We are strongly recommending the purchase of selected rare coins for investment, to be held for 3-5 years or longer. In average times, investments in properly selected U.S. coins can generally be

of Rare Coins

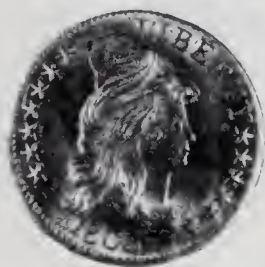

After receiving good service and selections on a recent portfolio order, I am pleased to order the following coins from you. . ."

"Enclosed please find a check for my fourth order of coins. Have enjoyed dealing with your firm and have been most pleased with the coins to date."

R.M., MONTANA

expected to double in value every 5 years. In times such as these, the increase may be far greater. We offer our clients the type of coins that we feel will appreciate well over the long run — coins whose value is based on true rarity and condition, rather than merely highly speculative intrinsic content. We also recommend certain series as investments for specific periods of time. For example: we are recommending the purchase of choice U.S. colonials to be held until 1976 — as we feel that the bicentennial will spark a great deal of interest in this particular field of numismatics. However, there are always going to be specific items within these series that we feel are better buys than others. If you would like to make an investment in rare coins, and are willing to place yourself in our hands, we will be happy to assemble an investment package for you which we feel will be best suited for your needs:

WHAT WE WILL DO:

We will do our absolute best to give you coins that will offer you the best possible appreciation over the period of time during which you plan to hold the coins. In addition, we can offer you advice as to the best possible methods of selling your coins when it comes time to liquidate. We will also diversify your package in such a way as to give you a secure position.

A complete description and background information are provided on each coin. Whenever possible auction records will be provided to further identify the coins. An explanation of grading (with reference to any special characteristics of the coin, such as soft-strike etc.) and derivation of our pricing are provided. Although we do not guarantee that you will get rich buying coins this way (though

some have), we do have the experience, knowledge of rarity and condition, and awareness of market conditions, to guarantee that unless you are an expert on the rare coin market, you will have a much better chance of profiting from such an investment than if you selected the coins yourself from other coin dealers (or even from us).

NEW ENGLAND RARE COIN GALLERIES:

In addition, you will be dealing with New England Rare Coin Galleries, a highly respected name in the industry. We are the largest and most active rare coin dealership in New England. We are rare coin experts and we pride ourselves on our competence as advisors of grade, authenticity, rarity and value, to collectors, investors, and other dealers.

Our name is your assurance of fair, consistent value and proper grading and attribution.

FURTHER GUARANTEE:

After you have received your package of rare coins, you will have 10 days to inspect the coins. Each coin in your package will be INDIVIDUALLY invoiced, and any single coin or coins may be returned for refund or replacement.

NOW:

If this type of arrangement sounds like what you are looking for, fill out the order form on page 57 and mail it in to us with your check. We will then assemble a group of coins which we feel are best suited to your particular investment picture. Each coin will be individually priced, and any coin(s) may be returned within 10 days for a full refund (for any reason or no reason at all).

Your satisfaction is completely guaranteed.

BUST DOLLARS

1795 Flowing Hair, Gem Borderline Unc. A superb, sharply struck coin with beautiful original toning and no marks or defects of any kind. It is no wonder it was originally purchased as BU. We just call it Borderline Unc. 12,000.00

1795 Small Eagle, Gem BU, a superb blazing jewel. Fully struck with full breast feathers on the eagle. No adjustment marks or defects of any kind. Every star, every denticle, every strand of hair is completely and fully struck up. This coin is simply fantastic in every respect.

While the 1795 Small Eagle dollar is not a rare coin in circulated condition, in true mint state it is one of the rarest and most sought-after of all type coins. It is probably close to five times as rare as the 1795 Flowing Hair type in this condition.

In 1972 a Gem 1795 Small Eagle dollar changed hands between dealers at \$21,000. At that time, gem flowing hair dollars could be purchased for about \$7,500. We note one transaction of a gem flowing hair dollar recently at \$50,000, and a number of choice (but not gem) specimens in the \$25,000-\$30,000 range.

This is the first Gem (or even choice) 1795 Small Eagle dollar to be offered for sale since 1972. We feel it is a superb value. Priced at.....\$40,000.00

THE 1884 TRADE DOLLAR

We proudly offer a choice, beautifully toned specimen, last sold in the Pelletreau sale (Stack's) in 1959. Glittering Choice Proof, and one of only ten struck.

In that sale, this coin was described as follows:

"1054. 1884 Trade Dollar. A beautiful BRILLIANT PROOF with raised borders, sharp stars and sharply defined eagle. This great rarity is from the Will W. Neil Collection lot #296 sold in 1947. It was also in the famous Atwater and Roe Collections. These coins were discovered at the turn of the century by a Philadelphia dealer. At that time the dealers guessed that there were ten struck. After reviewing the various sales records and private collections it is now assumed that there are not more than five or six coins known."

We feel that the original estimate of ten struck is probably correct, and it is now considered as official mintage figure. At least nine, and possibly all ten specimens are known, but only four or five are in

Choice condition, such as the specimen offered here. In fact, every dealer to whom we showed this coin and our 1885 Trade Dollar, agreed that each was the finest of the date that they had seen..

The 1884 Trade Dollar is in approximately the same rarity class as the 1894-S dime (10-12 known of 24 struck — recently sold for \$97,500.00), the 1876-CC 20¢ piece (12-14 known of 10,000 struck — currently being advertised at \$100,000.) and the 1838-O half dollar (10 known — an impaired specimen recently sold for \$85,000.).

If anything, the 1884 Trade Dollar is rarer than any of the examples above, and further enhancing its value is its fantastic condition. We are certain that this coin will prove an outstanding investment for its new owner. It is certainly an excellent value at our conservative price.

This Choice, beautifully toned specimen, Ex. Pelletreau, Neil, Atwater and Roe, probably the **FINEST KNOWN** example, is now available from us for only . . .

\$75,000.00

NEW ENGLAND RARE COIN GALLERIES PROUDLY OFFERS THE FABULOUS **1885 Trade Dollar**

This splendid specimen was last sold publicly in the Baldenhoffer sale (Stack's) in 1955. It is a perfect match to the previously offered 1884 — perhaps even slightly finer in condition — a glittering Choice Proof example with beautiful natural toning. One of only five specimens struck.

In the Baldenhoffer sale, our coin was described as follows:

"THE EXCESSIVELY RARE 1885 TRADE DOLLAR"

1040 1885 The Trade Dollars of this date were said to have been discovered in the proof sets of that year. Stack's has had the pleasure of selling some of the foremost collections in America and we are quite accustomed to rarities. However, this is only the second specimen we ever handled. The first was sold by us privately in 1942. This specimen we are now offering is the first to be sold by us at public auction. While records of amount made are not available, in our opinion we do not believe that there are more than five of these in existence, possibly fewer. This coin can be classed as rare as any other great American Silver Rarity. The fabulous Dupont Collection lacked this coin. We would not be surprised at any record price established. This coin is a splendid Brilliant Proof, slightly toned."

Five struck is now the officially accepted figure, and all five specimens are known. However, three of these are permanently impounded in famous major collections (Eliasberg, Amon Carter and Norweb). The other specimen, last sold in 1965 (Ewalt sale — Stack's was impaired. This is now the only Choice, COLLECTABLE specimen of the date.

Since no other 1885 Trade Dollars have been sold for over nine years, and no Choice ones for over nineteen years, it is very difficult to determine an accurate market price for this coin. However, we have taken the following facts into consideration. . .

- 1) The 1885 Trade Dollar is probably America's greatest rarity that is currently available for sale. We note the recent sales of an 1804 silver dollar (15 specimens known) and a 1907 MCMVII Extremely High Relief (12-14 specimens known) both for amounts reportedly in excess of \$200,000. The 1885 Trade Dollar is more than twice as rare as either of these.
- 2) Rarity factors of infrequently offered coins tend to increase values in disproportionately great amounts. For example: in May, Stack's auctioned a pair of \$3 gold pieces, 1875 and 1876. At that time, the 1876 real-

ized \$21,000. The 1875, which is not quite twice as rare as the 1876, realized \$150,000 — over SEVEN TIMES the price of the 1876. A comparable situation exists here with the 1884 and 1885 Trade Dollars.

- 3) The 1885 Trade Dollar offered here is in the finest possible condition. It is equal or superior to all other known specimens. The only other collectable specimen was abrasively cleaned and has severe hairlines. This specimen is a Choice, beautifully toned Proof — absolutely an unimprovable coin! Many of the dealers we showed it to considered it to be the finest known.

- 4) The 1885 Trade Dollar is one of the most infrequently offered of all U.S. coins. No 1885 Trade Dollar has been offered for sale since 1965 (Ewalt). No Choice one since 1955 when this one was last sold.

Meanwhile, four extremely high relief double eagles have been sold in the past five years. 1804 Silver Dollars are offered for sale virtually every year. At least three 1913 Liberty Nickels have traded hands within the past decade. Yet to our knowledge, only two 1885 Trade Dollars had been sold from 1942 until we purchased this one in August 1974!

- 5) The 1885 Trade Dollar is one of the most famous, romantic, and well-established of all U.S. coin rarities. It is NOT a pattern issue or a recently-promoted "rarity". It is undisputedly the rarest collectable regular issue silver coin.

With all these factors contributing to its value, we are confident that we could price this coin at substantially more than our asking price and still sell it! It is, after all, the only Choice Proof example that is ever likely to be sold in the foreseeable future. It is probably the finest known example.

It is almost impossible to say what this fabulous coin will bring in the future, but it is a virtual certainty that its new owner will realize a substantial profit should he ever decide to sell the coin. This has been the case with nearly all great numismatic rarities. Furthermore, there is the tremendous satisfaction (and often fame) that comes from ownership of a classic rarity.

AN EXCELLENT VALUE — A WISE INVESTMENT

We proudly offer this Choice, beautifully toned specimen for sale and we hope we may have the opportunity to someday repurchase the coin.

MORGAN DOLLARS

New England Rare Coin Galleries is pleased to announce the purchase of a complete set of Morgan Dollars.

This collection was assembled over a period of many years, and each coin was selected for its quality. Each and every coin is sharply struck and has minimum bagmarks. These coins would rate MS-65 (or in some cases better) and even those dates commonly seen weakly struck are choice, full strikes.

We are breaking up the set, and all coins are being offered at approximately 15% over the coin dealer newsletter wholesale "BID" price. They are included in the following listing.

Since most items are one-of-a-kind, we ask that you order as quickly as possible, and suggest a phone-call to reserve items.

1848 CAL, Gem BU, superb. Prooflike with full square edges.

In 1848, Col. R.B. Mason, the Military Governor of California, sent approximately 230 ounces of gold to Secretary of War Marcy. The gold was minted into quarter eagles with the distinguishing mark "CAL" punched above the reverse eagle while the coins were still in the die.

Of the 1,389 specimens struck, perhaps two hundred remain. This is an issue of great importance and historical interest. It is a rare and popular \$2½ issue, considered a part of the regular series. It is also often kept as part of a territorial gold collection. Some even consider it a separate gold type coin.

The specimen offered here is absolutely breathtaking. It is far superior to either of the "proof" examples now on the market. While the coin is usually available in VF, EF or even AU condition, it is rare indeed in truly gem condition such as this.

A dealer friend of ours paid \$35,000 for a similar coin a few months ago, and sold it immediately for an undisclosed profit.

Our price for this coin is not low, but coins of this quality and desirability always turn out to be bargains in the long run. We feel this coin is well worth our asking price. \$45,000.00

 Choice AU 150.00

1854-S EF, some minor planchet roughness as is characteristic of this very rare issue. This is by far the rarest date Liberty Quarter Eagle, and only 8 or 9 specimens of this date are known in any grade. This specimen is one of the finest known examples. Ex. Krug collection, Ex. Jack Klausen.

NOTE: An EF-AU example, the finest known specimen, only slightly finer than the one offered here was sold to a dealer at the A.N.A. Convention in August for \$65,000. (That dealer told us that he is not even offering the coin for sale at this time, as he feels it is such a fine investment.)

We also note that a VF-EF specimen realized \$31,000 at the recent Superior auction sale.

Our coin is priced to be an excellent value on today's market. Only \$35,000.00

1855-C Borderline Unc., very rare 5000.00

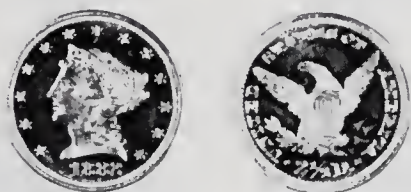

1855-D BU, excessively rare in all conditions. Breen estimates only 7 or 8 known. (We feel it is more likely 10 or 12, however it is still quite a major rarity.) Surely, one of the finest known examples 12,500.00

G.H., GEORGIA

1829 Large Date, Fine, mutilated on reverse. The worst example of only five known specimens.

While the specimen offered here is not in the most desirable condition (to say the least) it is certainly desirable in terms of rarity. This variety is even missing from the Smithsonian Institute Collection. The other known specimens are:

- (1) Omaha City Library, Ex. Byron Reed Estate.
- (2) Eliasberg, Ex. John H. Clapp, Ex. Harlan P. Smith (Pictured in the Guide Book)
- (3) Dr. Clifford Smith sale lot #1691, Ex. Farouk, Ex. Col. Green. Sold in 1955 for a then-mind-boggling \$11,000.00
- (4) Atwater lot #1646 (B. Max Mehl).

This specimen is from the 1964 A.N.A. Convention sale, lot #2863, Ex. Ed Shapiro, originally discovered in Europe.

We note a low-grade (good condition) 1894-S dime, a coin of which at least a dozen are known, being offered at \$50,000.00. A Choice Proof was recently sold for \$92,500.00. A Choice 1829 Large Date half eagle would certainly bring well over that figure (and closer to \$200,000!!) if offered today.

From this viewpoint, we feel that the coin offered here could be offered at nearly a six-figure price. However, we are more interested in selling it then speculating on its potential value. Thus we've priced it at a more realistic.....\$27,500.00

1829 Small Date, Choice Brilliant Uncirculated, with full prooflike surfaces. One of America's most famous and sought-after gold rarities.

Only seven examples of this issue are known. Two of these are permanently impounded in museums (Smithsonian and Omaha City Library). Two others are impounded in famous major collections (Norweb and Eliasberg).

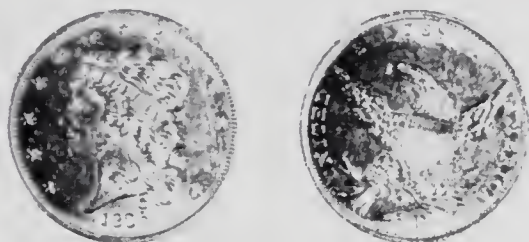

There are only three remaining collectable specimens. One of these, a coin in the same condition as this specimen, was sold privately earlier this year, for \$150,000.

As is nearly always the case with major rarities, especially those in choice condition, the new owner of this specimen will no doubt realize a substantial profit when it is sold again.

Due to a very fortunate purchase, we can now offer this splendid specimen at a most attractive price. An ideal showpiece, and a tremendous investment item.....\$125,000.00

\$5 LIBERTY GOLD

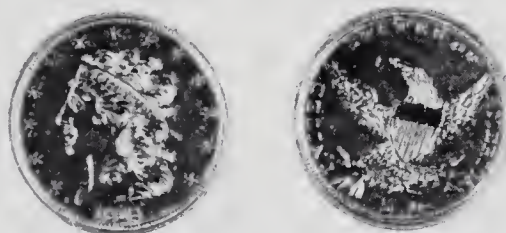

- 1834 Plain 4, BU, prooflike 1650.00
 Impaired proof, an authentic proof example that apparently fell into circulation. An unimpaired example would probably realize \$35,000 or more. This coin still retains about 75% of its original proof surface, and is considerably sharper than any uncirculated example. Full raised wire edges. Inexpensive at 6000.00
 1834 Crosslet 4, VF-EF, very rare and underrated variety. Breen says "Full R-6, and is a rarity class with a Crosslet 4 variety with motto" 600.00

- Borderline Unc, a similar specimen recently wholesaled at \$4750.00. This one more realistically priced at 2500.00
 1842 Small Letters Reverse. AU, an underrated rarity in this grade. Breen knew of only 5 specimens better than VF. "When this coin is offered at all, which is

- not very often, it is generally Fine or worse and peppered with small nicks." Rare and an excellent value at 600.00
 1842 Large letter, Borderline Unc, prooflike surfaces. A very scarce and underrated issue, particularly in high grades. Breen states, "I do not recall any mint state ones, though there are several EF's in numismatic circulation." This specimen is one of the finest known of this date 800.00

SPECIAL OFFER

N.E.R.C.G. has recently acquired the remainder of the small hoard of Civil War bank scrip from the Bank of Newbury, Wells River, Vermont. This group consists of three denominations: 5¢, 10¢, and 25¢, all in fresh crisp uncirculated condition. As you can see from the accompanying photographs, the 5¢ denomination was printed singly and in pairs on 7" long paper while the 10¢ and 25¢ denominations were printed in pairs only on 8" long paper. We can offer the following theory as to how this happened. The printer naturally began with the 5¢ notes and printed them one at a time centered in the middle of the 7" long paper. After printing a few notes, he decided that he could probably fit two notes on each sheet so he began printing two notes on each 7" long sheet, one at a time, since he only had one plate to work with. This was still not satisfactory, however, because the margins thus created were too small. This was remedied on the 10¢ and 25¢ notes by increasing the length of the paper to 8".

Although we have seen these identical notes advertised nationally for up to \$3.95 per single note, we can now offer them at the following special prices:

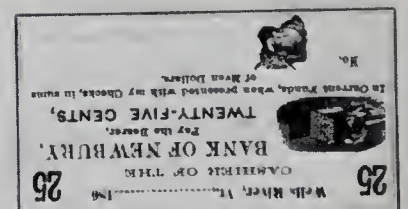

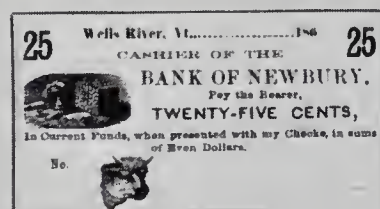

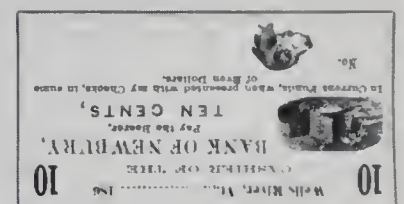

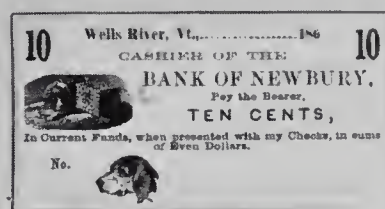

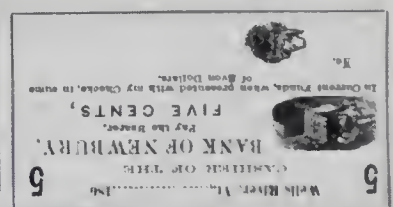

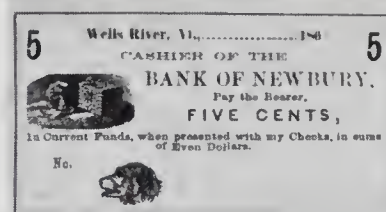

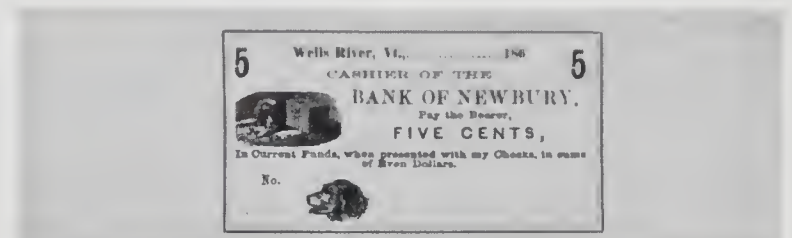

5¢ single (narrow margin)	1.95
5¢ single (wide margin trial note) Rare	12.00
5¢ uncut pair	3.75
10¢ single	1.95
10¢ uncut pair	3.75
25¢ single	1.95
25¢ uncut pair	3.75
Set of 3 singles, 5¢, 10¢ and 25¢	5.00
Set of 3 uncut pairs, 5¢, 10¢, and 25¢ (6 notes)	12.00

Fr # 595, \$5 National Bank Note 3rd Charter period series 1902. Signatures: Lyons, Robers. Red Seal, First issue (without 1902-1908 on back.)

Refer to page 228 of Friedberg's 7th edition. This note was issued by the Atlantic National Bank of Providence, R.I.

Rhode Island issues of this type are referred to as State #S-1241. Prices listed on this page are for notes in Very Fine condition. The rarest state

priced on this page is Alaska, with a price of \$1000 in Very Fine condition. Rhode Island notes are UNPRICED, and listed simply as "RARE" (even in VF grade).

This note is GEM CRISP UNC. and a hand-written note accompanies: "Presented to Harriet A. Kenyon, Jan. 11th 1906, by her husband. This being one of the first bills signed by him as President of the Atlantic National Bank." Conservatively priced at 1500.00

American Numismatic

At Home

ANA membership makes it easier for you, as a collector, to make a serious study of the area of numismatics that interests you — to build up a real knowledge of your specialty while you are building your collection.

- **The Numismatist**, the Association's official magazine, is mailed free each month to all members except Associates. The editor publishes the best feature articles available on popular phases of collecting, identifying, and caring for money, tokens and medals. Most issues have 176 or more pages, with top quality illustrations. You will read of newsworthy men and collections, new coin issues of the world, new books, fakes that can hurt your collection, and editorial comments and Association news. **The Numismatist** accepts advertisements from members only, whose reliability is outstanding and who agree to abide by the ANA Code of Ethics and Bylaws.

- When you are a new member, you receive without charge a copy of the 48-page **Introduction to Numismatics**, and the **Dictionary of Numismatic Terms**. Reprints of many articles from past issues of **The Numismatist** can be purchased.

- Use of the largest circulating numismatic library in the world is one of your privileges as a member. The only charge for borrowing reference books is the postage round-trip from Colorado Springs.

- A museum with displays and study collections is being developed in the Colorado Springs headquarters. Visitors are welcomed.

- The Association, in conjunction with Colorado College, conducts a week-long seminar every July covering a variety of subjects. The modest tuition includes room and board, field trips, lectures by noted authorities, and use of college facilities. Write for further details.

- Several insurances, such as on numismatic collections, hospital money plan and life, are available to members. Being group insurance, the costs are lower than on comparable individual policies. All plans are administered for ANA by a long-established insurance agency.

Abroad

ANA membership makes it more fun to collect coins — to display what you know and have, and make friends who share your interest.

- If you give talks or make displays, your local coin club can send for ANA certificates of award for you. You can widen your activities to include state or regional coin shows and conventions.

- Each year for five days in August, the ANA national convention is held in some major city where there are enough hotel rooms and floor space for displays and the dealers' bourse. There you will attend a national auction, see world famous collections, compete for display awards yourself, listen to educational forums, meet collectors from everywhere, attend the business and award sessions of your Association, and enjoy social events. In the 100-table bourse room you will meet dealers whose names are already familiar to you and see their choicest items for sale. Local ANA members arrange trips and parties, and the convention ends with the traditional banquet.

- For young collectors, the ANA reserves special categories

in the National Coin Week competition and in convention exhibits, publishes well-written articles, and gives awards for outstanding numismatic accomplishments.

- While not a guarantee of integrity, ANA membership does establish you as a collector of record and serves as an introduction to other members. The low-cost silver or bronze membership medal is engraved with a member's name, number and date enrolled. You can order membership buttons and jewelry and an emblem to use on stationery or as a rubber stamp.

Your Interests

The ANA is internationally recognized as the spokesman for organized coin collecting. It acts to represent collector interests both in promotion of desirable work and events, and in suppression of adverse conduct and practices. Its coveted awards recognize outstanding enterprise and services in numismatics. At the same time, a Code of Ethics is binding on each member. The Code outlines principles of moral conduct that collectors and dealers should follow in contact with one another, and a breach of the Code by a member is considered cause for disciplinary action by the Board of Governors. A reward fund pays up to \$5,000 for information that leads to arrest and conviction of anyone who steals a member's numismatic items.

Facts

The ANA operates in accordance with a Federal Charter first granted by an Act of Congress in 1912, then made perpetual in 1962. The principal office is in Washington, D.C., but operations are centered in a headquarters building owned debt-free in Colorado Springs.

- A Board of Governors, including President and Vice President, is elected every two years and serves without pay. These officers, and members of advisory committees, may live anywhere. The professional staff in Colorado Springs, on full-time salaries, includes an Executive Director, Editor, Advertising Manager, Librarian and Museum Director.

Memberships

A \$5.00 application fee for Regular membership is payable with the first year's dues of \$8.00 with the application. The fee is not required for Juniors under 17 years of age nor for Associate or Life Members. Associates wishing to transfer to Regular membership must apply therefore as new applicants but retain their original numbers. Dues for the second calendar year of a new member are adjusted to give credit for any months missed the first year. Only persons 21 years of age or older are eligible for Life membership. Junior Members become Regular Members automatically at age 18.

Names of applicants (but not necessarily addresses) are published in **The Numismatist** in the second issue following date of receipt. If no objections are received within 30 days the applicant is admitted and a membership card for the current year is sent to him. In case of objections, the procedure specified in the By-laws is followed.

Association

a nonprofit
educational association
founded in 1891

The American Numismatic Association, founded in 1891, is the largest and most active organization for coin collectors in the world. It is a nonprofit organization chartered by Congress. Most of its 25,000 carefully selected members are adult residents of the United States, but several hundred live in other countries, and its Young Numismatists are active and

enthusiastic. The ANA welcomes to membership all persons of good character, 11 years of age and over, who have a sincere interest in collecting and studying coins, paper money, tokens, medals and other numismatic items. The dues are low; the prestige and services that go with the privilege of membership have great value.

CODE OF ETHICS OF THE AMERICAN NUMISMATIC ASSOCIATION

Membership in the American Numismatic Association is a privilege extended to those persons and organizations deemed worthy thereof and is not a matter of right. Such membership can be maintained only until the Board of Governors determines that the conduct of a member has been such that, in the best interest of the Association, his membership should be terminated.

For the guidance of its members, this Code of Ethics has been duly adopted by the Board of Governors under the authority vested in it by the Federal Charter and the by-laws of the Association. A breach thereof by any member reflects, directly or indirectly, upon all other members. Such a breach shall be considered conduct prejudicial to the welfare of the Association and cause for action by the Board of Governors.

As a member of American Numismatic Association:

I agree to support and be governed by the Federal Charter and the by-laws of the Association, and such rules, policies and regulations as may be in force from time to time;

I agree to conduct myself so as to bring no reproach or discredit to the Association, or impair the prestige of membership therein;

I agree to base all of my dealings on the highest plane of justice, fairness and morality;

I agree to neither buy nor sell numismatic items of which the ownership is questionable;

I agree to conform to the accepted standards of dignified advertising;

I agree to take immediate steps to correct any error I may make in any transaction;

I agree not to sell, exhibit, produce, nor advertise counterfeits, copies, restrikes, and reproductions of any numismatic items if their nature is not clearly indicated by the word "counterfeit," "copy," "restrike," or "reproduction" incused in the metal or printed on the paper thereof, with the exception of items generally accepted by numismatists and not in any way misrepresented as genuine;

I agree to represent a numismatic item to be genuine only when, to the best of my knowledge and belief, it is authentic;

I agree to fulfill all contracts made by me, either orally or written, to make prompt payments upon delivery, and to return immediately any item that is not satisfactory;

I agree to give aid to members in their quest for numismatic knowledge.

New England Rare Coin Galleries is proud to offer to the public, a unique opportunity The actual U.S. Mint COIN DIES

used in the production of the 1968-S Proof Sets

THE DIES

New England Rare Coin Galleries is proud to offer to you our few remaining coin dies, dies actually used in the minting of coinage for proof sets in 1968.

LOOKING BACK . . .

1968, a short six years ago, was an exciting year for numismatics. After a three year dry spell, it was announced that proof sets, sets of coins made expressly for collectors, would again be minted. But this year history was to be made with the announcement that the proof sets were to be minted, *NOT* at the traditional Philadelphia mint, but at the newly revitalized mint in San Francisco; and that they would bear the "S" mintmark!

HISTORY

The first proof set ever issued from any branch mint, breaking the 110 year Philadelphia mint tradition; the first time U.S. proof sets were to bear any mintmarks . . . and the first and *LAST* time in post-1900 numismatics that the actual historical dies were allowed out of the mint!

COLLECTOR INTEREST . . .

These dies are fascinating pieces of numismatic history, and because they have been defaced at the mint before their release, they are completely legal to own. Although the dies have been defaced, many still retain partial effigies of familiar faces and mottos still in use on our coinage today.

Each die has been individually serial marked at the mint, in addition, each has the "P" stamped into it indicating use in making proof coinage, and the letter "S" incused into each die to indicate its use in the San Francisco mint.

NEVER AGAIN . . .

New England Rare Coin Galleries is the only firm from who you can now purchase these dies. Once our supply is exhausted, there will be no more (the government has stringent controls to see that no more coin dies leave the mint), no more will ever be released, not next year . . . not ever!

These dies are both unique and fascinating; unique as representatives of the first year of operation of the San Francisco mint since 1955; fascinating to all numismatists, or anyone for that matter! A tremendous opportunity to obtain a wonderful conversation piece as well as a welcomed addition to any educational display. The laws of rising demand and absolutely limited supply make these a wonderful potential investment item.

UNIQUE OFFERING

Our supply is limited, but while we still have a few available, we make the following offering:

PRICE: \$24.00 per coin die*
 \$225.00 per complete ten die set. Sets of ten dies include one reverse and one obverse die of each denomination minted (cent, nickel, dime, quarter and half)
On individual coin die orders, you may specify preferred denomination. Even though denomination is of our choice, we will do our utmost to see you get your preference.

At this time, we must limit orders to no more than five (5) dies or sets per customer, dealer or investor.

To make this offer even more irresistible, we shall include free of charge a 1968-S proof set with each order for a ten die set.

This unique offer gives you a chance to participate in acquiring a true piece of numismatic history and since this may very well be our final offering of these unique dies, we urge you to send your order now while they are still available.

MONEY-BACK GUARANTEE

If, for any reason you are not satisfied, you may return the dies within 10 days for a full instant refund.

☐ *If you have already received an investment package, and your conditions are unchanged, please check here and we will refer to original copy for necessary information.*

Please answer these questions as specifically as possible.

How long do you expect to be holding these coins? If you're not sure, please give approximate chances of each possibility — example: "I will probably hold for 10-12 years, but there is about a 20% chance I will need to sell in 4 years." (Note: *We do not recommend investing in rare coins unless there is a good chance you'll be holding them for an absolute minimum of three years.*)

Do you have any preferences regarding intrinsic values of coins, specific type of items that you prefer, etc.? (Note: We prefer that you leave these considerations up to us, however we will accommodate any wishes regarding specific interests you may have.)

How do you intend to dispose of these coins when it becomes time to sell? Would you like us to give you our recommendations?

Do you know if you will be investing more money in rare coins using this plan in the future? If so, approximately when and in what amounts? (This will help us plan which of the coins that fit into your picture to sell you now and which to plan on selling you later, as we feel certain coins may now be underpriced and others overpriced on a short-term basis although both may be underpriced on a longer-term basis.)

Amount to be invested \$

(Sorry, we cannot accept orders at this time in amounts of less than \$500.00).
